REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

By comparing statistics for several years past I note that the membership in Canterbury schools has been increasing, being 77 in 1922-3, 80 in 1923-4, and 92 in 1924-5.

At the same time the number of pupils in high schools is growing less, the amount paid for high school tuition last year being the smallest since 1919. Its seems probable that the number of high school pupils will increase next year.

The school tax last year was the smallest since 1920. The amount of state aid is increasing. In December of the current school year we received $121.92 from the state, with a prospect of $461.52 next year.

The percent of attendance remains the same as for the year reviewed in the last report. It is perhaps a fair average for a rural town. The number of tardinesses also is about the same, which makes a very poor showing. If all parents looked upon going to school as their children's one really important business for eight years, less of their valuable time would be wasted in absence and tardiness.

Four of our five teachers are residents of Canterbury, three of them natives. This is perhaps not too large a proportion of home teachers, especially considering the difficulty of securing boarding places for teachers from out of town. Under these conditions I believe that it is important that the superintendent and school board insist on teachers attending summer school every few years.

Last year's teachers were offered an increase in salary if they would attend normal school for a six-weeks course during the past summer. No one accepted this offer. I fully appreciate the sterling qualities of those teachers and the thorough, conscientious work they are doing. I realize that summer school attendance may

have been inconvenient or impossible for some, especially with the small salaries they receive; but Canterbury should demand, and pay for, teachers who are ready to go out every few years and secure the benefits provided either in our own state or elsewhere.

During the seven years under the new school law only about $900 has been expended for repairs on our four buildings. This is by far the smallest effort made toward improvement by any town in this supervisory union. Many things still need to be done both outside and inside the buildings in the way of mere upkeep, to say nothing of improvements.

I wish that Canterbury might be persuaded to adopt the plan, followed by many districts, of putting one building into really good condition each year. If the balance now in the treasury were used to make one building a thoroughly up-to-date schoolhouse, similar to the Oak Hill School in Northfield, I believe you would wish to improve the other buildings also.

While the present year has presented some problems difficult to settle without friction and misunderstandings, I feel that we have reason to express appreciation of the moral support as well as the financial support being given to the schools.

Respectfully,

GEO. W. SUMNER.
